| Attorney Docket No. 11336-641 | :                        |

This decision is in response to the "REQUEST FOR REVIEW OF PATENT TERM ADJUSTMENT", filed April 7, 2006, requesting correction of the patent term adjustment (PTA) indicated on the patent.

The request is **DISMISSED**.

On March 17, 2006, the Office mailed the Determination of Patent Term Adjustment under 35 U.S.C. 154(b) in the above identified application. The Notice stated that the patent term adjustment (PTA) to date is four hundred thirty-three (433) days. Applicants submitted the instant "REQUEST FOR REVIEW OF PATENT TERM ADJUSTMENT" on April 7, 2006. Applicant states that he believes there was an error in his favor in the patent term adjustment calculation.

The Office determined a patent term adjustment of four hundred thirty-three (433) days based on an adjustment for PTO delay of four hundred thirty-three (433) days pursuant to 35 U.S.C. 154(b)(1)(A)(i) and 37 C.F.R. § 1.703(a)(1), reduced by zero (0) days of applicant delay.

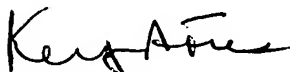

A review of the application does not reveal any errors in the calculation of the patent term adjustment.

It is noted that applicants filed a terminal disclaimer on March 6, 2005. The provisions of § 154(b), for adjustment due to examination delay, apply to original applications, other than designs, filed on or after May 29, 2000. The Office calculates patent term adjustment for examination delay in all eligible applications. In calculating the patent term adjustment, the Office does not differentiate between applications that have terminal disclaimers and those that do not. Nor does the Office undertake the burdensome task of reviewing every application with a terminal disclaimer to determine if the patent term adjustment accorded would adjust the term beyond the expiration date specified in the disclaimer.

Rather, on issuance of the application, in compliance with 35 U.S.C. 154(b) and 37 C.F.R. § 1.703(g), it is indicated in the patent that the patent term adjustment indicated therein is subject to any disclaimer. Moreover, it is also stated therein that the patent is subject to a terminal disclaimer.

The application file is being forwarded to the Office of Patent Publication for processing into a patent.
